The following is an examiner's statement of reasons for allowance:

The claim 1,6,11 and 16 are allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: a receiving unit for receiving information input externally for setting a lowered amount of the sheet container, and a storage for storing the received information, wherein the elevation/lowering driving unit lowers the sheet container by the lowered amount stored in the storage when the position detector detects a change in the position of the regulating unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
